## Important information about care before and after installation:

- The vehicle must be thoroughly washed, rinsed and dried prior to installing.
- Care and cleaning agents that resemble or contain silicone should not be used on the vehicle just before installation.

## Care instructions:

- The vehicle must be washed at least once a month.
- Insect remnants and bird droppings must be removed immediately.
- High-pressure water cleaners must be held at least 2 feet away from the vehicle.
- Care and cleaning agents containing powder or abrasives must not be used.

## You can't see it but it protects your VW.

With the Volkswagen Clear Film Protection System, the value of your VW model will be preserved. Here are some important points of interest about your limited warranty in case you ever have a complaint:

- Volkswagen Clear Film Protection System must be installed by a certified tech through your local Volkswagen dealership.
- Your limited warranty card must be completed by the installer after the job is completed.
- Warranty claims must be made through your VW dealer.
- The limited warranty for this product is covered for (1) the earlier of 12 months/12,000 miles or (2) the duration of your new vehicle limited warranty, whichever is longer.

## During the limited warranty period you may be assured that:

- The film is UV-proof.
- The film is tear-proof.
- The film will protect against stones less than a quarter of an inch wide.
- Bubbles will not form if properly installed.

Your one-stop VW shop.
